IMPORTANT NOTICE.—C. Wheatstone & Co. have absolutely determined that all their Duet Concertinas are tuned Equal Temperament. All Instruments fitted with a Concertina in that it has a complete chromatic scale on each side, the right hand being for the Melody or Treble, and the left hand for the Accompaniment or Bass. It can also be played reversely, that is, the Melody on the left hand and the Accompaniment on the right, according to how the music is arranged. The Duet Concertina is very useful for Solo work, especially when the aid of a Piano is not available, as by the disposition of the Treble and Bass on opposite sides of the instrument the performer is enabled to play his own accompaniment. Harmonies and very extended chords can also for the same reason be produced.

A considerable number of pieces have been specially arranged for this instrument, but Pianoforte and Organ music can also be used, as in cases where the Bass descends below the compass of the Concertina it can generally be played an octave higher or otherwise adapted.

Duet Concertinas are Double-action, each key producing the same note or sound whether the bellows be pressed in or drawn out. They are made with 46, 56, 58, 62, 67, 72, and 81 keys, and have a compass of nearly four octaves.
